

School/Bus Rule

Cover your mouth and nose with a cloth face cover when on the bus and school.

- You could spread COVID-19 to others even if you do not feel sick.
- Everyone is required to wear a [cloth face cover](#) when riding the bus.
- The cloth face cover is meant to protect other people in case you are infected.
- **Close contact with others on the school bus (unless of the same household) is prohibited and violation will be considered a serious offense.**

School Rule

Limiting face-to-face contact with others is the best way to reduce the spread of coronavirus disease 2019 (COVID-19).

Social distancing, also called “physical distancing,” means keeping space between yourself and other people outside of your home.

To practice social or physical distancing stay at least 6 feet (about 2 arms’ length) from other people.

In addition to [everyday steps to prevent COVID-19](#), keeping space between you and others is one of the best tools we have to avoid being exposed to this virus and slowing its spread locally and across the country and world.

Close contact with others at school indoor and out is prohibited and violation will be considered a serious offense. Since people can spread the virus before they know they are sick, it is important to stay away from others when possible, even if you—or they—have no symptoms.
